

Product data sheet

SMARTSAN I O T S A N I T A T I O N U N I T

What is Smartsan?

The SmartSan touch-free unit is the first sanitation bin of its kind. It is equipped with both battery and waste level detection technology allowing us to remotely monitor when the bin has been used and how often, and when the batteries require changing. This compact, slimline unit is designed to fit easily into tight spaces and can be used for either sanitary disposal or nappy waste.

Key Features & Benefits

- Cloud connectivity via Shmik Hygiene IoT infrastructure.
- Hand sensing technology for contactless use.
- Each individual unit is remotely monitored, allowing us to respond quickly if there is a fault or if a service need exists
- Tamper detection feature alerts us immediately if the unit has been tampered with or damaged.

Product Dimensions

Height: 490mm
Width: 150mm
Depth: 150mm

Weight

Weight: 0.6kg

Capacity

22 Litres

Hardware checklist

- Robust construction
- Touchless
- Quiet operation
- Tamper switch
